

Attachment-1

Summary of the Project (Summary of the Drilling Program)

Well Type	LWD hole	Geo-Tech Coring
Water depth (m)	Approximately 1,000m to 1,500m	
Number of Well(s)	4	1
TD (below seabed, m)	+/- 500	+/- 400
Well Profile	LWD to TD Run MDT Logging in one well	W/L Coring from 0m to 100m Continue (30m Coring/36m Drilling) to TD
Last hole size	8-1/2"	11-7/16"
Drilling Riser & BOP	No	
Drilling Operation Window and Estimated Operation Days	From 01/Dec./2021 to 31/Jan./2022, for 39 days in total.
